

Blank Patch Panel

IKCOM offers wide variety of blank patch panels for different installation site. The blank patch panel is ideal for data, voice, and audio/video Ethernet cabling systems. The blank patch panel can accept UTP/STP keystone jacks, keystone footprint couplers and multimedia snap-in modules to configure your Ethernet patch panel to accommodate a variety of schemes. The blank patch panel can be mounted to any standard 19-inch relay rack, cabinet or wall bracket to create a specialized rack mount patch panel to fit your individual networking requirements.

- **Fixed High Density**
