

FIELD TERMINATION PLUG - CAT.6&6A

IKCOM Field Termination Plug is designed to be simple to be terminated with the twisted cables at field. The IDC is design to accommodate different diameter conductors up to 22AWG. All eight conductors are terminated at same time when the wire cap is squeezed. This process ensures consistent, reliable termination. The Field Installable plug is particularly ideal for IP enable devices, such as surveillance camera and building automation. And the simple termination design enables the installers easy to achieve Cat.6/Cat.6A.
